

2016 eco-film series: be inspired

Thin Ice*

January 26, 2016
6:30 pm exhibit
7:00 pm film

Join us for a special viewing of "Piecing Together a Changing Planet" quilt exhibit at the Boott Cotton Mills* before watching *Thin Ice*, a film that follows scientists to the ends of the Earth as they reveal the startling evidence that our climate is warming (73 min).

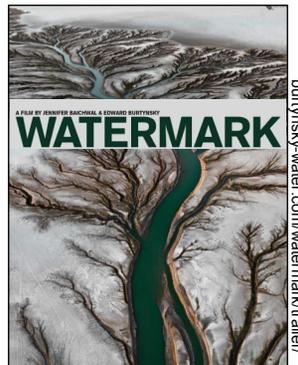

*Note location change: film will be held at the Boott Cotton Mills Event Center, 115 John St., Lowell. Parking at John Street Garage.

Watermark

February 23, 2016
6:30 pm

"...how does water shape us, and how do we shape water?" *Watermark* explores this compelling question by traveling around the world to discover how different cultures relate to the source of all life (92 min).

Tiger Tiger

March 29, 2016
6:30 pm

With only 3,000 tigers left on Earth, Dr. Alan Rabinowitz travels to Asia in a race against time to discover how land conservation could protect the majestic jungle cat. Special guest speakers: Hear from two local fifth-graders about what they've been doing to save their favorite animal (89 min).

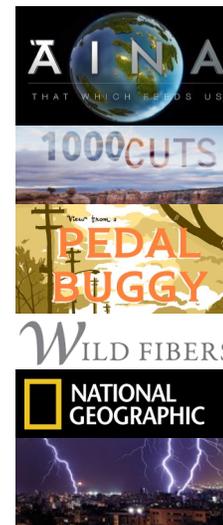

An evening of short films

April 26, 2016
6:30 pm

In honor of Earth Day, join us for an evening of short films! From superstorms to ancient trees to unique man-powered vehicles, these films offer a window to environmental wonders around the world and how different people are reacting to today's environmental crises (94 min).

Planned films: Aina, 1000 Cuts, View from a Pedal Buggy, Cashmere Community Center, Sequoia in a Snowstorm, and Weather Gone Wild.

The Salt of the Earth

May 31, 2016
6:30 pm

This film is a stunning visual journey through Sebastio Segaldo's lens as it follows his new project: capturing the natural beauty of our planet. Segaldo has been photographing people around the globe for forty years to draw attention to social injustices and natural resources. This film is a 2015 Academy Award nominee (110 min).

*rated PG-13

Love Thy Nature

June 28, 2016
6:30 pm

Narrated by actor Liam Neeson, *Love Thy Nature* explores the connection between humans and the natural world: although we often think of ourselves as separate from our environment, science is beginning to bring us closer to our natural roots in inspiring ways (74 min).

Please note, films are subject to change. Please visit www.lowelllandtrust.org for current schedule.
